SECOND BOARD.

SALES OF STOCKS AT PHILADELPHIA-

TUESDAY, April 27, -P.M.

There was again a dull market to-day for Stocks, but the fancies were well held. There appeared to be no disposition to press Stock on the marhet, either to realise or to operate for a decline. The bear interest was quiescent. After the Board there was better feeling, which continued at the second Board, ben although the transactions were to a moderate extent yet prices were well sustained. Reading under quotations of 78 from Philadelphia went to 77 4, an improvement of % P cent. from yesterday's closing price. Erie was 88%, an improvement of ¼ \$\psi\$ cent.; Harlem advanced ¼ \$\psi\$ cent.; Canton ½ \$\psi\$ cent., with but little offering; Norwich 1/2 P cent.; Long Island was more ective than of late, but fell off & P cent. ; Zinc was heavy the morning, but again improved at the second Board, nd closed firm. Between the Boards Albany and Schenectady sold at 103, an advance of 1/2 P cent, and that price bid for more. There was an active demand for Governments and \$80,000 6s, 1867, sold at 1177s 20 11814. There was also a firm market for State Stocks enerally, at full prices. For Railroad Bonds there was derate inquiry. Eric Convertibles, 1862, improved A P cent. In Sterling there is a firm market with a business, but not the activity of yesterday. The advance to 9% checked the demand, and good bills were left over at 9% P cent. Various reasons are given for the sudden advance in Sterling-a plausible one being that the leading drawers had purposely depressed the market, being buyers and remitters them-selves, rather than sellers. It has been noticed that while the late low rates were current they were free buyers, but evinced no disposition to draw, excepting in small amounts.

Freights are rather more active, but without change of importance. Engagements 500 or 600 bales Cotton 3-16 27-32d, 2,000 bbls. Flour 12d 2134d, 30,000 or 40,000 bush, Grain 3d @34d and 34d, ship to bag it; Resin 15d @18d. To London there is but little doing; Flour 18d, Oil-Cake 1/9, Turpentine 2/. To Havre Cotton byc. To Marseilles four or five brigs have been taken for Staves at about previous prices. From Atta-kapas a brig was taken at \$5 P hhd. for Sugar and Molasses. There is some talk of Cuba and Deal freights, but nothing has been done.

In the money market there is no change. The supply continues very abundant at 5 76 \$ cent. on call and first class paper.

Winslow, Lanier & Co. advertise in another column to pay the interest on the City of Cleveland 7 P cents. issued to the Cleveland and Pittsburg Railroad Company, City of Madison 7 P cents., and Madison and Indianapolis Railroad 7 P cents.

The Merchants' and Mechanics' Bank of Chicago, organized under the new law, has bought Virginia Bonds, as a basis for circulation. Anther new Bank is to be organized at Quincy-capita \$1,000,000, by St. Louis capitalists.

Mr. Winter, the owner of the Bank of St. Marys, the suspension of which we noticed yester-

day, has published in Charleston the annexed card : day, has published in Charleston the annexed card:

To the Public.—A very heavy and upprecedented run upon the Bank of St. Marys, for the month past, aggravated and brought to a criss by an unnecessary and probably vinderive publication in The Mobile Tribinue, and copied in The Montgomery Advertiser without comment, of the inability of the drawer to pay the Bank's draft for \$20,000, has, I am pained to say, forced her to a temporary suspension of specie payment. It alfords me, however, pleasure to assure the public, that the institution is abundantly solvent, and requires only a little time to marshal her assets. In addition to her own means, I will bring to her aid my own ample fortune, until not a note shall be left in circulation.

The means will be in a few days provided to pay all her depositors, and the outstanding checks upon the several points drawn will be honored on presentation. These assurances to the public of the entire solvency of the institution are not given for the purpose of sustaining its credit, as the Bank will be wound up without delay, and her charter surrendered to the power that created it. The small notes of the Bank as well as my own, will be promptly redeemed, without intermission, until the last dollar shall have been retrieved. I will close my financial connection with the public with honor, even should it be necessary to part with everything but its good opinions.

The foreign advices by the Franklin this

The foreign advices by the Franklin this

morning are considered to be commercially favorable. Breadstuffs and Cotton were in fair demand and steady. Consols had touched 29%, the highest point they have reached since June, 1845, when they were 1014 -Money centinued abundant, and lower rates of interest were looked for. It is proposed to put three large steamers on the Havre and New-York route. At Paris, the closing prices of the 414 P cents were 101f.10c.; 3 P cents, 71f.90c.; and Bank of France, 2,800f.

The Hudson River Bank of Hudson has declared a dividend of four P cent.

An improvement in the Dry Goods trade

is visible. There is a greater demand from the West

The Franklin brings \$85,000 in specie,

and North, including Canada, and which is likely to continue for a few weeks. City jobbers themselves buy paringly, their stocks being little reduced. The export demand for Goods is rather less active, but it is still fair in amount, and includes Brown Sheetings, the general demand for which has improved, and prices are rather more buoyant, from 64,264c. Bleached Goods are in large stock, with an improved demand, and prices are steady. Drills are in very brisk demand, and sell to arrive, so that there is no stock, and prices have an upward tendency. Osnaburghs are in fair demand, with about an equal supply. Denims are quiet, in view of of the public sale advertised for the 29th inst, of 4,000 packages. Stripes and Ticks are in better request, and prices are more steady. A public sale of 1,000 packages Stripes is to take place on Thursday. Printing Cloths are firmer, with a moderate inquiry. Prints are dull and beavy for all but a few new goods and styles coming forward. Ginghams are steady at uniform prices, and with a balanced supply and demand. Lawns are in fair re-quest, and prices are firm. De Laines are slow of sale

and at drooping prices. There is more inquiry making

for Cloths, and fair sales are making at \$2 and under

Sattuets are in good demand, and maintain the prefer-

ence they have commanded through the season over

Casimeres. Prices are steady. Fancy Casimeres are

dull. The new favorite styles are large plaids, and these command a ready sale. Other styles, including blacks

and plain colors, are dull, with an accumulating stock.

There is more doing in Jeans, but prices are low.

Tweeds are dull. Foreign Goods are firmer, as the sales

have reduced the stock considerably, especially of Freuch Gooda. The goods most depressed are the thin dress goods—Baréges especially; but Silks and Ribbons are very firm. Cloths, especially German Cloths, are

pressing on the market, and prices favor the buyer. Staple British Goods are also selling but slowly. The

clothiers are making some purchases of materials suita-ble for the fall trade. There are some fears that the im-

rtations in the 'all will be too large, procisely because

in the spring they have proved unexpectedly for She

current prices, however, do not favor the presumption, as the selling price of Goods are below the apparen cost of importation. The imports at present are light and are not to order, but are mostly on foreign account, sent here to realize the prices of the day, without regard to cost, to clear the market whence they come.

The Rochester Democrat says:

"But few boats passed the weigh-lock en Saturday, and not more than 3,500 bbis. of Flour have gone forward. The break at Albion was to be repaired on Monday, and so that boats can pass. A number of light boats are going on West every day."

The late heavy rains have retarded the work on the Delaware and Hodson Canal, and this caused a delay in the opening. It will be open for business in a few days. The Company have issued their usual circular, fixing the prices of Coal at Rondout at 35 cents higher than the prices of last year, with an advance of 10 cents on the 1st of July next, and a further advance of 10 cents on the 1st of September. The opening prices are as follows:

JAMES L. CURTIS, President.
New-York, March 10, 1852.

DEREMPTORY SALE of FIRST
MORTGAGE BONDS of the BUFFALO, CORNNIG & NEW-YORK RAILROAD CO.—This Company
will offer for sele, through SIMEON DRAFER, on the 18th
day of May next, at 12 o'clock, at the Merchants' Exchange,
in the City of New York, \$400,000 of their First Mortgage
Bonds, payable in 1867, with 7 per cent, interest, payable
semi-annually, at the "Bank of Commerce in New-York."
These Bonds are a part of one million authorized to be lesued for the purpose of completing their road, and are secured by a first mortgage on the entire road and its franchises, by deed of trust to John A. Stevens, James S. T.
Stranslan and John A. C. Gray, as trustees, and are convertible into the stock of the Company at par at any time
within five years from their date.

The road extends from Corning, on the New-York & Eric
Railroad, to the City of Builalo, a distance of 184 29-106
miles, and will, when completed, form, in connection with
the New-York & Eric Railroad, one of the most important
and direct thoroughfares between the Cities of New-York
and Buffalo and the Far West, and will connect at Corning
with the Corning & Blosburgh Reilroad, now being re-laid
with T rail, which extends to the rich iron, coal and lumber
regions of Fennsylvania.

On diverging from the New-York & Eric Railroad, this

with the Corning & Blosburgh Relirond, now being re-laid with T rail, which extends to the rich iron, coal and lumber regions of Pennsylvania.

On diverging from the New-York & Erie Railroad, this road passes up the rich and fertile valley of the Conhocton River to near its source, at the northerly line of Steuben County, a distance of shout forty-free miles—passing through the village of Cooper's Plaina, Campbell, Savona, Bath, Kennedyville, Avoca, Liberty Corners, Conhocton and Wayland, thence through Springwater, Conceus, Livonia, Avon, (where it crosses the Genesse River,) and Caledonia, in Livingston County, and through Le Roy and Stafford to Batavia, in Genessee County. This part of the line, for nearly its whole length, passes through one of the richest and most productive portions of our State.

From Batavia the line of the road passes westerly in nearly a straight line to the City of Buffalo.

The cars are now running on 25 miles of the road west from Corning, and it is expected to have the rails laid by the 30th inst. for twenty miles further, when the cars will run 45 miles. The road is under contract to Batavia, and it is designed that the cars will be running over the whole road in all of the present year.

The mortgage provides that only \$400,000 of Bonds can now be issued, and the balance as consecutive portions of the road lare completed. When the whole of said Bonds shall be issued, the amount of incumbrance on said road will be something less than \$7,500 per mile. The amount of the first issue, \$400,000, will constitute an incumbrance equal to \$7,150 per mile upon the fifty-six miles of the road which are now hearly completed, being less than the value of the tirot and land.

By this arrangement it is believed that the bondholders will be made secure beyond a possibility of doubt, the property of the Company being at all times amply sufficient to indemnify them against any loss.

SALE of MORTGAGE BONDS of the

LAWRENCEBURGH and UPPER MISSISSIPPI RAILROAD COMPANY.—This company offers for sale \$50,000 of their seven per cent. First Mortgage Bonds, with Interest Coupons annexed.

These bonds are in sum of \$1,000 each, payable let March, 1868, with interest on the first days of March and September, at the office of the Ohio Life Insurance and Trust Company, in the City of New-York, where the principal is also payable. They are convertible into the stock of the Company at par, at any time within five years from their date, and are secured by a first mortgage on the outire road, its franchises and equipment, by deed of trust to George S. Goe, of the city of New-York, this being the first and only lien upon the Road, and this being the entire sum authorized to be issued by the mortgage.

The road extends from the road to run from Cincinnati to St. Louis, at Lawrenceburgh to Indianapolis, the capital of the State of Indiana, a distance of 904 miles, and will, when completed, with the twenty miles of the road aforesaid, between Lawrenceburgh and Cincinnati, form the nearest and most direct line from Indianapolis to Cincinnati.

It passes through several important towns, and over a most fertile and well improved country, and by means of railroad connections made and making at Shelbyville and Indianapolis, this line will be placed is communication with fully one-half of Indiana, forming the best, and, for much of the country, the only avenne of travel and trade to Cincinnati. Seven railroads are made to Shelbyville, in Indianapolis, the most of which must naturally seek an outlet over this road.

The entire line is under contract, and about 20 miles is now ready for the iron; the grade will be prepared to receive the superstructure as far as Shelbyville, 65 miles, this fall, which place is aiready connected by Railroad with Indianapolis, and the lengther miles of the facility of the particular town of t
